GSEO -2026

Globe Science and Environment Olympiad (GSEO)

The Globe Science and Environment Olympiad is an educational initiative by Indian Environmental Society, designed to promote scientific inquiry and environmental awareness among students. It aims to inspire young minds to explore, observe, and deepen their understanding of Earth systems and environmental change through meaningful engagement.

SIGNIFICANCE

GSEO is more than just a competition—it's a platform to:

It cultivates environmental responsibility in future generations. strengthens student's skills in observation, analysis and inquiry. it also fosters academic excellence and interest in STEM education. It also provides national recognition to young environmental leaders.
